Pass marks-45

		Pass marks—45	
		[N.B. The figures in the right margin indicate full marks. Answer any five questions.]	Marks
1.	(a)	What is accounting equation? Why is it necessary in recording process?	4+4=8
100	(b)	What is chart of account? Why is it important?	2+4=6
	(c)	Sonia is a new accounting student contends that Double-Entry system means each transaction must be recorded twice. Is Sonia correct? Explain.	6
2.	(a)	"Accounting is an information system"—Explain.	5
2.	(b)	Who are the users of accounting information and how accounting information help them taking financial decision?	7
	(c)	"All transactions are event but all events are not transactions"—Why?	3
	(d)	Is agreement of trial balance a conclusive proof of arithmetic accuracy of the ledger balance? If not, discuss the reasons.	5
3	(a)		6
٥.	(b)		4
	(c)	Mr. Sohag has recently started a delivery business named "Fast Del Services." Some of his transactions in the month of August are as follows:	10
		August 1 Deposit Tk. 200,000 of his personal savings in account Imperial Bank in the name of Fast Del Services.	2 2
		3 Acquired a reconditioned delivery truck costing Tk. 15,00,000 paying Tk. 5,00,000 as down payment in cash and financing the remaining by taking a bank loan.	
		7 Paid Tk. 25,000 as rent for the month.	
		10 Acquired office supplies on account Tk. 2,000	
		15 Rendered services to customer Tk. 1,50,000 for delivery services on account.	
	70 8	17 Paid insurance premium of Tk. 30,000 for next three years.	
		20 Collected Tk. 1,00,000 from customers for service provided on August 15.	
	= 1	21 Paid utility expenses of Tk. 8,000.	
		23 Received Tk. 60,000 in advance from Tristar Company for delivery services.	
		28 Transferred Tk. 50,000 from 'Fast Del Services account at Imperial Bank to owners personal account at the same bank.	
	Re	equired: Make Journal entries for the above transaction in the books of 'Fast Del Services.	
1			2×5=10
4.		(1) Profitability ratios measures the short term ability of the company to pay its obligations and to meet unexpected needs for cash.	223 10
	((2) An account is an accounting record of either a specific assets or a specific liability.	
		(3) Adjusting entries are required by the cost principle of accounting.	
		(4) Recognizing depreciation on an asset results in an accumulation of cash for the replacement of the assets.	
	((5) The historical cost principle dictates that companies record assets at their cost and report them at fair market value over the time the assets are held.	
	(b)	What is closing entry? What are the objectives of making closing entries?	2+4=6
	(c)	State some of the differences between adjusting entries and rectifying entries.	4
